jetPRIME™ DNA Transfection Reagent

Catalog No.	Description
I14-15	jetPRIME™ kit 1.5 ml of jetPRIME™ + 2 x (40 ml of jetPRIME™ buffer)
I14-75	jetPRIME™ kit 5 x (1.5 ml of jetPRIME™) + 1 x 55 ml of jetPRIME™ buffer 10x (conc.)
I14-75C	jetPRIME™ kit 5 x (1.5 ml of jetPRIME™) + 1 x 120 ml of jetPRIME™ buffer 5x (conc.)

1.5 ml is sufficient to perform ca.375 transfections in 6-well plates. Bulk quantities are available upon request

INTERFERin™ siRNA Transfection

Catalog No.	Description	Number of Transfections
409-10	INTERFERin™ (1ml)	500-1000 siRNA transfections in 24-well plates (1 nM siRNA concentration)
409-50	INTERFERin™ (5 x 1ml)	5000-10000 siRNA transfections in 24-well plates (1 nM siRNA concentration)

1 ml of INTERFERin™ is sufficient to perform 500-1000 transfections in 24-well plates.

RNA Products

- RNA Extraction
- Dr. P (DNA, RNA, Protein) Extraction
- Dr. P (DNA, RNA, Protein) Sets
- RNA Analysis
- siRNA
- mRNA
- mRNA Array
- mRNA Northern Blots
- Total RNA
- Total RNA Array
- Total RNA Northern Blots
- Universal RNA
- Tumor Matched Pairs
- And more!

Protein Products

- Protein Extraction
- Mitochondria Extraction
- Protein Purification
- Protein Analysis
- Recombinant Protein
- Universal Protein Lysate
- Tissue Protein
- Tumor Matched Pair Total Protein
- Mega Western Protein Arrays
- Total Protein Western Blots
- And more!
